DILATION

Dilation of the pupils is the only way to have a thorough and complete eye examination. It allows your optometrist to obtain a better view inside your eyes in order to ensure optimal eye health. For this reason, it is required by law of this State to be a part of all first-time routine exams. ***There is no additional charge for this procedure.***

Dilation may temporarily result in blurred vision and sensitivity to light for about two to four hours. Sunglasses will be provided. If you are not prepared at this time to be dilated, please check the appropriate line below and sign your name.

___ I wish to have a complete exam including dilation
___ I wish to have a complete exam, but would like to reschedule the dilation. I understand that there may be diseases, defects, lesions or other problems that were not examined or ruled out today; and as a result, I do not hold Kandace Haines, O.D., Ocean Optics of Delray Beach, Inc. or its associates liable for any delay in diagnosis and treatment that may have resulted from my deferring dilation today. I understand that it is my responsibility to reschedule this portion of the exam.
